

VALOR™

GUTTER GUARDS

2025 PRODUCT CATALOG

Passes Fire Codes
Wildfire Ready!

Meets W.U.I. Standards & Fire Class A Standards

PRODUCT SPECIFICATIONS

Specifications

Designed for all gutter systems, roofing types and roofing slopes. The durable stainless steel mesh and metal frames are engineered to not bend and to handle heavy rainfall. The raised screen pulls water in and keeps debris out of any slope roof. Frame colors and raised pattern screens provide an aesthetically pleasing design appearance with terrific performance. Many Valor accessories increases the performance for many special circumstances.

- **Hi-Flo Louver Frame & Hi-Flo Series** designs handle heavy water flow.
- **Raised S-Shape Screen** pattern with stainless steel mesh diverts water and deflects debris & leaves.
- **3 Colors** of aluminum frames available, plus custom **copper frame options**.
- **Fits 4 in. to 7 in.** standard gutter widths, with **custom wing sizes** available.
- **Lifetime Product Warranty**, no clog performance guarantee.
- **Melt-Away** heat cable guard cover and **Moss-Away** strip systems available.
- Most importantly, **Designed & Assembled in the U.S.A.**

Product Specifications

Name	VALOR Gutter Guard
SKU	Varies (specify width, color, configuration & mesh size)
Brand	VALOR
Screen (mesh)	All Screen is 304 Stainless Steel Mesh <ul style="list-style-type: none"> • Standard 40 Mesh (.007 Wire ~ 1600 holes/sq.in.) or • Large 24 Mesh (.009 Wire ~ 576 holes/sq.in.) or
Screen Width	2.5" exposed for 5" & 6" versions. 6.25" for Hi-Flo series
Colors (frame)	Colonial Gray, White, Charcoal, or Custom Copper
Metal (frame)	20 Gauge Painted Aluminum or Custom Copper
Quantity	Amount varies due to product configuration
Product Length	4.0 ft.
Product Width	A) Under-shingle mount "flat wing" versions: <u>5.5" flat wing</u> or <u>7.25" flat wing</u> B) Fascia mount "bent wing" versions: 5" or 6" to fit K-style gutter systems

Ordering Valor is Quick & Easy

NOTE: VALOR GUTTER GUARDS COME IN 4 FT LENGTHS, PRICED BY THE FOOT

Ordering Step by Step:

Phone: (916) 303-6204. Email: info@valorgutterguards.com

STEP 1

Find the products you need in the Valor Catalog

1. Pick Color or Material
Colors: Colonial Gray, White, Charcoal
2 Materials: painted aluminum, custom copper
2. Pick Screen Size
2 Screens: Standard (40 mesh), Large (24 mesh)
3. Pick Product Width
2 Flat-wing widths: 5" (actual is 5.75"), 6" (actual is 7.25")
2 Bent-wing widths: 5" (actual is 4.25"), 6" (actual is 5.25")
Custom wing sizes are available, call for details
4. Pick Quantity
Amount varies due to product configuration
Yes, you can mix product types in a single box
Yes, you can order less than a full box

STEP 2

Remember to check for needed accessories and don't forget to factor in scrap allowance (Scrap allowance is estimated to be 5-10%)

Make your job-site install fast and easy by ordering trim packs and pre-made miter kits (No extra charge for factory precut inside or outside miters)

STEP 3

To order; you can call, email or text your order. We will confirm your order in less than 1-2 business days.

(Please include any special shipping instructions or locations)

STEP 4

- Payment is due at time of shipment
Product is priced per foot, sold in 4 ft sections
We accept all major credit cards
We provide invoices and tracking numbers at time of shipment

Shipping cost is extra

100 ft to 800 ft orders are shipped UPS Ground

800 ft and up orders may be shipped freight on pallet

How To Order

Don't Forget!

Products you may need to purchase locally:

- GE Clear Silicon (4oz tube)

Pro Cutting Tip:

For easier install and cutting of Valor Gutter Guards, use "Bullnose Snips" by Wiss, order the Valor precut miters, or cut with a chop saw with the blade installed in reverse (so the teeth don't "grab" the material).

**Watch the Valor Gutter Guards Install Videos
on our Website!**

WHY ARE VALOR GUTTER GUARDS RIGHT FOR YOU?

The Valor Gutter Guard design team set out to make an American designed and assembled gutter guard that handles high water flow and sheds debris better than any other gutter guard on the market. With the creation of the louvered frame, this simple gutter guard is able to handle high water flow without algae or moss build up. Other competitor frames have channels that collect and hold debris which encourages moss growth, but not Valor. Valor frames stay clean and clear, since there is no frame floor to collect debris like other lesser gutter guards. Valor's superior raised S-Curve design screen micro-mesh design easily sheds debris and captures maximum water flow without water running off. Competitors' flat screens allow water to flow over and off during medium-to-heavy rainfall. Valor is the obvious choice for your customers to deliver optimal performance. It is designed and assembled in the U.S.A. with a Limited Lifetime Warranty.

Valor Gutter Guards offer a full line of accessories that allow Valor to fit all types of homes and roof systems. Our accessories, such as high flow miters, heating cable seams, and zinc moss repellents make Valor the ultimate option for any project. Valor's variety of colors, screen sizes, and wing options allow you to sell more and deliver unparalleled performance to your customers. Going with Valor means outstanding performance and happy customers, with none of the hassle.

- Awarded NCR #1 Gutter Guards 6 Years in a Row
- Proudly Designed and Assembled in the USA
- Confidence with a Lifetime Warranty
